Intermediate  
Completed in 2015
- **S N High School, Narpatinagar**  
Metriculation  
Completed in 2013

### Career Objective

As a Frontend Developer fresher, I am enthusiastic and eager to apply my skills and knowledge to develop dynamic and responsive web applications. With a strong foundation in HTML, CSS, and JavaScript, I am eager to learn and grow in the field of web development

### Personal Project

#### Weather Web App

**Technology:** React Js, JS, HTML, CSS, JSON

#### Description:

- A Weather App using ReactJS is a web application that displays real-time weather information.
- It utilizes ReactJS, HTML, CSS, and JavaScript to create an interactive interface.
- The app fetches weather data from APIs, providing details like temperature, humidity, wind speed, and forecasts.

#### Quiz Web Application

**Technology:** Angular Js, JS, HTML, CSS

#### Description:

- The Quiz Application developed using AngularJS is a web-based interactive platform where users can participate in quizzes by answering a series of questions.
- It utilizes AngularJS, HTML, CSS, and JavaScript to create a dynamic and engaging user interface.
- The application incorporates features such as data binding, dependency injection, and routing provided by AngularJS.

#### Sarkari Naukri Clone

**Technology:** HTML, CSS, Bootstrap

#### Description:

- A Sarkari Naukri clone in HTML, CSS, and Bootstrap is a webpage that closely imitates the design and layout of the original Sarkari Result website, but with the name changed to Sarkari Naukri.
- It replicates sections such as job listings, results, and admit cards, using HTML for structure and CSS for styling to achieve a similar visual appearance.

### Certification

**2023**

Completed Front-end Developer course in React & Angular.
